

# Mini Oil Test Centre mOTC

## FG-K1-100M-KW

The Mini Oil Test Centre is a suite of electronic oil test equipment designed for use in a very harsh industrial environment. The measured results correlate very well with the lab results measured as per ASTM/ IP/ ISO methodisation.

**mOTC** is a composite test centre with capabilities to do the following tests

**Viscosity** at 40 and 100 Deg C

**Combined Test Cell for Water in Oil and TBN**

**TAN Colour Titration**

### Industries

- Steel
- Cement
- Power
- Marine
- Offshore
- Automobiles
- Railways
- Defense

Parameter	Range	Test Time
Viscosity	20-810 cSt	2-5 mins
TAN	0-6 TAN	2 mins
TBN	0-80 TBN	2 mins
Water	.02-1%, 0-10%, 0-20%, 200-10000ppm	2 mins

Patch Test for Insolubles/Soot also available
