

Oxi Solid Block Bath 4 Way - 16670-0

ASTM D525; ASTM D873; BIS IS 1448-147; IP 40; BS 2000-138 & IP 138;
BS EN ISO 7536 & BS 2000-40 & ISO 7536

- 2 position
- Dry block
- Over temperature cut out
- Small footprint

The Seta Oxi Solid Block Bath is an aluminium block bath with digital temperature control that has been designed to accept up to four oxidation vessels for carrying out tests equivalent to the IP 40 test method. Seta Oxidation Vessels (15802-2) are recommended for use with the Seta Oxi Block Baths.

Pressure in the vessel can be monitored automatically with the Seta Auto-Oxi Control System (15452-2)

Specifications:

Product Number:	16670-0
Temperature Range:	Ambient 0 °C to 130 °C
Bath Type:	Dry block
Max No. of Test Vessels:	4
Bath Capacity:	18 litres
Heat-Up Time to 100 °C:	80 mins
Voltage:	200/240 V, 50/60 Hz
Size (HxWxD):	30 x 60 x 28 cm
Weight:	65 kg
